Tel: +972-52-6229966

Marital status: Married, 4 children, date of birth: 12/02/80

Address: 1st Harav Yana, Netanya, IL

Final Project | Mobile App Development Studies

Blogpost about the Project: <http://yonish.net/2015/10/26/final-project>

View on AppStore: <https://appsto.re/il/qFg0...i> 

I Built an application (on both IOS & Android platforms) for a young religious community in Netanya/Israel:

The application has a 'Siddur' for praying, information about the community, synagogue prayer times and Shabbat candle lighting times. Times are calculated in the App (no web connectivity needed). There is a feature enabling donations directly from the App.

The App also includes:

JSON Parsing: The App gets data for updates from the server.

Parse.com: User management using Parse + Facebook SDK integration (user can log in from Facebook account).

Work Experience

2011 – Present: Webmaster & Creative at 'Kranot Hashotrim' – www.kranot.org.il
